

More Options = Stronger Relationships

Encore is a private lender for experienced real estate investors. We partner with community banks to provide flexible capital solutions that help them better serve their customers or members. Encore operates as an extension of your team, ensuring that your customers or members continue borrowing from you, while we provide additional capital when required. Our aim is to enhance your existing relationships by offering the flexibility and resources you might not have due to internal or regulatory constraints.

Flexibility at Its Best

Unlike traditional financial institutions, Encore has no maximum loan limits. This means your customers or members can access the funds they need without the constraints of self-imposed or regulator-imposed exposure limits.

Simplicity & Greater Efficiency

With Encore, you can roll all of your outstanding single family residential and build-for-rent investment loans into one comprehensive loan for your borrower. Our process is designed to be as seamless and straightforward as possible, freeing you to focus on what you do best—serving your customers or members.

Built on Trust & Relationships

Encore is committed to building a strong relationship with your customers and members. Our primary goal is to support your existing relationships by providing the capital solutions you need, allowing you to maintain and strengthen your connection with your customers and members.

About Encore Finance

Encore Finance is a private lender serving experienced real estate investors. Founded by long-time industry veterans, Encore's mission is to help real estate investors grow their businesses quickly and sustainably. Our focus is on building long-term relationships with borrowers through trust, integrity and flawless execution.
